Dear Ms. Griffin:

As a follow-up to our meeting of February 19th, we have reviewed our files and found the following sites do not have Pre-Scores which score in excess of the threshold required for National Priorities Listing. Given the fact that Region 5's current policy is to "No-further Actions" sites with scores less than twenty-eight and one half, we would recommend that the following sites be removed from the active CERCLIS listing and placed on the archived list.
